TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, shadcn/ui, Framer Motion, Storybook

Design: Figma, Design Systems, Component Libraries, Responsive UI

Backend & Data: Node.js, Express.js, MongoDB, PostgreSQL

Tools: Git, Vercel, Sanity CMS, Cursor, Claude, MCP

PROFESSIONAL EXPERIENCE

Wokay

Sep 2025 – Present

Design Engineer

- Owned major parts of the **core product redesign**, translating high-fidelity Figma designs and complex product requirements into production-ready React.js experiences while collaborating closely with design and engineering.
- Redesigned and shipped the complete **onboarding and post-onboarding experience across 40+ screens and states**, covering edge cases, user flows, product states, and transactional communication.
- Built and maintained a shared **design system and reusable React component library**, establishing consistent UI patterns and enabling faster development across the product.
- Designed, built, and integrated the **transactional email system end-to-end**, covering onboarding, product updates, inactive-user campaigns, account communication, and release emails sent to **800+ users**.
- Rebuilt the product's **Command K navigation experience**, redesigning the interaction model and simplifying a confusing legacy flow to improve discoverability, navigation speed, and overall usability.
- Led end-to-end development for a **B2C education platform**, delivering the Next.js website, CMS, admin panel, Supabase integrations, course flows, email automation, WhatsApp automation, and analytics infrastructure.
- Scaled the B2C education platform to **50K+ unique visitors and 125K+ page views in approximately 60 days**, supporting **INR 25L+ in website-attributed revenue**.
- Built and maintained Wokay's **marketing website**, integrated Sanity CMS for content management, and collaborated with the SEO agency on technical SEO and website improvements.

ShadcnBlocks.com

Jun 2025 – Jul 2025

Frontend Developer – Freelance

- Built and shipped **50+ production-ready UI blocks** using Next.js, TypeScript, Tailwind CSS, and Framer Motion, focusing on responsive layouts, reusable patterns, and polished interactions.
- Published reusable UI blocks for developers to integrate directly into production applications.

Dardoc Health Technologies Limited

Jan 2025 – Apr 2025

Software Engineer – Contract

- Owned development of a **doctor dashboard** for the Weight Loss Program, reducing daily manual operational work by **20%**.
- Built end-to-end booking experiences for **Lab and IV Drip services** and shipped conversion-focused landing pages for healthcare services.

PROJECTS

Spectrum UI | [Live](#) | [GitHub](#)

- Built and maintain **Spectrum UI**, an open-source React and Next.js component library with **1,000+ GitHub stars**, focused on production-ready interfaces, reusable components, and animated UI patterns.
- Designed and implemented **reusable UI primitives and animated interaction patterns**, with a focus on responsive behavior, composability, and production quality.
- Built the **Spectrum UI MCP server**, enabling AI coding tools to discover and use components directly within developer workflows.
- Selected for the **Vercel OSS Program** and grew the project to **150K+ visitors**, earning recognition across developer platforms including Daily.dev, 21st.dev, and Peerlist.

EDUCATION

Jiwaji University

Jul 2023 – Jun 2026

Bachelor of Science in Computer Science | CGPA: 8.49
